The National Park Service (NPS) has released a [Public Comment Analysis Report](#) and the [initial public comments](#) for the [General Management Plan Amendment](#) (GMP Amendment) for Point Reyes National Seashore and the north district of Golden Gate National Recreation Area. The GMP Amendment will update management guidance for more than 28,000 acres of NPS lands, including all lands currently under agricultural lease/permits at these two parks.

This report describes the initial public comment period and presents a summary of the nearly 3000 comments made during the 37-day comment period in the fall of 2017. Along with the report, all correspondence received during this period and additional information on the GMP Amendment can be found at the park website <http://go.nps.gov/pore/gmpa>.

ERS has not commented yet on this project but we will most likely be sending comments on the upcoming Notice of Intent to prepare a Draft EIS. Not sure when this will occur but I would like a chance to get on the same page before it does...
